

EDA Summit 2023

Sponsorship Opportunities

May 10, 2023

**A virtual summit devoted to
the advancement of event-driven
architecture in business.**

Organized by **solace**.

What is EDA Summit?

EDA Summit is the first conference dedicated to helping organizations understand and implement event-driven architecture (EDA).

As the pace of change continues to accelerate and our world becomes more digital, event-driven architecture promises better customer experiences, more efficient operations and greater agility to enable organizations to thrive.

EDA Summit attracts business leaders, architects and technologists who want to learn about and implement event-driven architecture. It brings together EDA experts from around the globe to share:

- Insights into the business and technical benefits of EDA
- How to overcome implementation challenges
- Success stories on how leading enterprises are using EDA to underpin their digital transformations
- Tips, tricks and best practices to help implement, plan and manage event-driven journeys

Why Sponsor EDA Summit?

Be Recognized as an EDA Thought Leader

Having a presence at the Summit positions your business as a thought leader and authority in EDA. Demonstrate your company's leadership and innovation in front of a captive audience of CXOs, architects, technologists and developers.

Increase Lead Generation

Gain access to all opt-in leads that visit your virtual exhibit or view your session.

Build Brand Awareness In Your Target Audience

Specially designed packages allow for maximum visibility within your targeted audiences before, during and after the event.

Build New Relationships & Clients

Directly interact with attendees using our live chat feature, schedule 1:1 meetings during the event and host live sessions in the virtual exhibit.

Don't miss this opportunity to showcase your EDA-related products and services to 1000s of CXOs, Architects and Developers from around the world.

Sample Fortune 500 Companies in Attendance

Amazon, CVS Health, AVIS, Unilever, ExxonMobil, Dell Technologies, Google, etc.

55 Speakers from Around the Globe

**5,000+ Architects, CTOs, CIOs
and Developers Registered Last
Year. 6,000+ Expected This Year.**

Attendees from Dozens of Industries

Including Banking, Technology, Health Care, Telecom,
Retail, Manufacturing, CPG, etc.

Attendees from 90 Countries

Including Hong Kong, Australia, United Kingdom,
Singapore, United States, Germany, India, etc.
